This is the new update letting everyone in on some new developments regarding Taygetan Pleiadians in the orbit of the Earth, Federation, and much, much more.

I have been presenting this information in Spanish, along with Robert from the channel Despejando Enigmas, since April, but since the communication is so important, I decided I had to also share it with the English speaking world in a separate English only channel. It is NOT channeling. It is DIRECT written word for word communication.

Join us, THIS IS a part of the DISCLOSURE and contact effort with the human race.

and yes the beeings you talk about are very correct and maybe a bit patriarchical. But this is because they always wear any tec and maybe this made them more correct, they are very scientifical. But I'm lucky that some see this more like, yeah, let's do something constructive now. So come on over, Swarru, then you did something constructive. ;)

can you send Swarru over for a Pleiadean tea...? I have once seen one of these blue spheres in the sky. A lot of people have seen such beeings Swarru is travelling with.
I have seen them too but it was like in a dream. They should care some more about us humans here. I mean look, I am just as human as you. They all think we would be crazy believing in such things.
